Q.62 (SPLIT C) Now let me read you two statements. After I read them, please tell me which statement comes closest to your own views, even if neither is exactly right.

*The Democratic candidate for Congress says, we need new priorities that will help America's families deal with financial pressures and rising costs of everything. We should invest in health care to reduce the crushing burden on families, and in education so every child is prepared for a good job. We should make college more affordable for families and invest in alternative energy that reduces our dependence on oil.*

*The Republican candidate for Congress says, government is too big and spends too much, and the best way to help America's families is to cut taxes and spending. We should pass tax cuts to stimulate the economy, create jobs and allow people to keep more of their hard-earned money. With more money in Americans' pockets, they can buy health care, pay for college and own a home.*

Q.63 (SPLIT D) Now let me read you two statements. After I read them, please tell me which statement comes closest to your own views, even if neither is exactly right.

*The Democratic candidate for Congress says, we need to invest in the right things that will help America's families while also making government accountable for every dollar it spends. We should invest in health care, education and in the development of alternative energy. We must also make government accountable by auditing every department, ending no-bid contracts and pet programs for members of Congress.*

*The Republican candidate for Congress says, government is too big and spends too much, and the best way to help America's families is to cut taxes and spending. We should pass tax cuts to stimulate the economy, create jobs and allow people to keep more of their hard-earned money. With more money in Americans' pockets, they can buy health care, pay for college and own a home.*
